Re: Covid Update - Easing Covid Restrictions

We hope everyone is managing to stay cool through this extreme heat wave.

Over the last several weeks the government and ministry of health is executing steps in removing restrictions and orders in regard to COVID-19. This is great news, and we are all looking forward to being able to get back to some sort of normality. However, these announcements and changes currently do not change the existing processes and policies in the senior's care homes including our Hamlets sites. This means that the visiting process will continue as is, including the entrance screening process and requirement to wear a mask while inside the building. Essential visitors must also continue with this same process. We do expect some direct communication from our health authorities in the next couple of weeks outlining the changes in the health care sector. We will continue to update you as information becomes available to us.

We would like to thank you for your continued support and patience.

And Remember - Be calm, Be kind, Be vigilant,

and we will get through this together.
